

Transactions list

Request:

GET	https://api.moneypipe.com/sandbox/v1/transactions
-----	---

Request headers:

Name	Value
Authorization	Bearer {token}

Query parameters:

Parameter	Description	For example
sort	Sort by fields: id, operation, amount, linked, reject_reason, created_at, updated_at.	sort= created
sort_type	Sort types: <i>asc</i> , <i>desc</i> .	sort_type= asc
id	Filter by id. Comma separated values.	id= transactionId1,transactionId2
operation_id	Filter by operation. Comma separated values.	operation_id= operationId1,operationId2
tx_id	Filter by tx_id from Blockchain.	tx_id= yqOaOf1KN7nBDOYMf6tiNR
amount_from	Filter from specified amount value.	amount_from= 0.001
amount_to	Filter to specified amount value.	amount_to= 20
status	Filter by status. Values are separated by commas	status= 0
linked	Filter by linked. It have to be 0 or 1	linked= 1
reject_reason	Filter by reason	reject_reason= 23
created_from	Filter the creation date from the specified value	created_from= 2019-03-21
created_to	Filter the creation date from to specified value	created_to= 2019-03-21

page	Current page number	page= 2
per_page	How many lines to display per page	per_page= 10

Response:

200
